35 Features to Grow Your Mobile Game

Daily rewards, player retention, revenue and free marketing.

A. Daily Rewards and Basic Features

1. Coins System
Give 100 coins for 1st place, 50 for 2nd, and 25 for 3rd.

2. Daily Streak
Reward players for playing every day. Track their current and best streak.

3. 7-Day Login Rewards
Give increasing daily rewards, starting at 50 coins and reaching 500 on Day 7. Missing a day resets the calendar.

4. Daily Missions
Give players 3 new tasks every day to earn coins.

5. Unlock Shop
Let players unlock characters, skins, and themes using coins.

6. Watch Ads for Coins
Give 500 coins per ad, with a maximum of 5 ads per day and a cooldown.

7. Share Cards
Let players share beautiful HD cards showing their wins and streaks.

8. Share and Earn
Reward players for sharing the game, up to 3 times a day, with a 10-minute gap.

A. Daily Rewards and Basic Features (continued)

9. Instagram Story Bonus
Give a one-time bonus for using the Instagram Story sharing option.

10. Referral Code
Give both players 500 coins when a new player joins using a referral code.

11. Player Profile
Show player name, avatar, total games, and wins.

12. Daily Reminders
Let players choose when they want a daily game notification.

13. Premium Subscription
Remove ads and give premium players 2x coins.

14. In-App Review
Ask for a genuine Play Store review after the 3rd game or a win. No rewards for reviews.

15. Basic Features
Add in-app updates, settings, Hindi and English languages, a privacy policy, and analytics.

B. Features to Bring Players Back Every Day

16. Daily Challenge
Give everyone the same daily challenge with a separate challenge streak.

17. Streak Freeze
Let players protect their streak by spending coins or watching an ad.

18. Free Chest
Give a free reward chest every 4 hours and notify players when it is ready.

19. Lucky Spin
Give 1 free spin daily and extra spins through rewarded ads.

20. Comeback Gift
Give a special reward when a player returns after 3 or more days.

21. XP and Levels
Give XP after every game and rewards whenever players level up.

22. Achievements and Badges
Let players earn badges and display them on their profiles.

23. Collection Album
Create character and skin collections. Give bonuses for completing a full set.

24. Weekly Events
Add special weekly events with limited-time themes and rewards.

25. Smart Notifications
Send reminders for streaks, free chests, and daily challenges. Limit them to 1-2 per day.

C. Features to Increase Revenue

26. Double Coins with Ads
Let players watch an ad after winning to double their coin reward.

27. Rewarded Help
Let players watch an ad to get a hint, undo a move, or continue a puzzle.

28. Interstitial Ads
Show an ad after every 3 games, but not on the first day or during the first session.

29. In-App Purchases
Sell Remove Ads, coin packs, and a special one-time starter pack.

30. Piggy Bank
Collect bonus coins while playing. Players can unlock the saved coins with a small purchase.

31. Season Pass
Add a 30-day season with free and paid reward tracks.

D. Features for Free Marketing

32. Emoji Results
Create Wordle-style emoji results that players can share on WhatsApp and social media.

33. Challenge a Friend
Let players send a link challenging their friends to beat their score on the same level.

34. More Games Section
Promote your other games inside the app so players can discover them.

E. Save Progress and Manage Rewards

35. Cloud Save and Remote Config
Use Google Play Games for cloud progress where supported, and remote config to change coin rewards and ad settings without updating the app.
